XVI INTERNATIONAL CONGRESS OF BIOCHEMISTRY

NEW DELHI, INDIA

Serial No 011

June 4,92

Sept 18-22, 1994

Dr Harmon C McAllister
Research Director
The Council for Tobacco Research U S A., Inc
900 Third Avenue
New York, New York 10022

Dear Dr McAllister,

The XVI INTERNATIONAL CONGRESS OF BIOCHEMISTRY AND MOLECULAR BIOLOGY is being organised in NEW DELHI from 18-22 SEP.,1994. This is a trienneal meeting which biochemists and molecular biologists from all over the world attend to discuss recent advances in these areas. Research findings reported at this meeting have made a lasting impact on biology, For example, several Plenary Lecturer's at the earlier Congress have received the Nobel prize.

We are hoping that more than 5000 participants from a number of countries are likely to attend this meeting . Many of them are leading scientists who have made epoch making discoveries. They hold important adminstrative and scientific positions in their countries. In addition, a large number of upcoming scientists who are on the verge of making major break throughs in science will also be attending the meeting. XVI Congress of Biochemistry and Molecular Biology, is thus an important meeting for a large section of Biologists in the world.

We are in the process of finalising the first circular, extending an invitation to the Scientific Community to attend the meeting. This circular will contain details about the scientific sessions, exhibitions etc.

I am writing this letter seeking financial support/donation from your company. I am enclosing with this letter some information about the Congress. Our total expenditure for the Congress would be Rs.5 Crores (approximately 1,700,000$). This contribution will be suitably acknowledged in our Souvenir/Brochure.

With best regards,

Yours Sincerely,

N Appaji Rao
Secretary General
